Transmission Gully - Phase II Investigations Engineering and Environmental Assessments Contract Number: NZTA 345PN

Transmission Gully is the proposed 27 km long four-lane divided carriageway highway between MacKays Crossing at Paekakariki and Linden along a “green-fields” route east of SH1, in Wellington’s Western Transport Corridor.

The project is currently in Phase II, which consists of the investigations and other work required to prepare for lodging applications for the various statutory approvals needed in a possible future Phase. The statutory approvals required include:

- Planning consents within the four Territorial Authorities affected (Kapiti Coast District, Porirua City, Upper Hutt City and Wellington City Councils) needed to change the existing designations to reflect the preferred alignment
- Regional resource consents (GWRC)
- NZ Historic Places Trust Authority

This tender relates to the work required to support the applications for statutory approvals. These services comprise 14 separate workstreams as listed in the following table:

1. Geographic Information Systems (GIS)
2. Roading (including motorway geometric) design
3. Structural design (geotechnical, earthworks, bridges, culverts and retaining walls)
4. Hydrology and Stormwater Control
5. Programme and Cost Estimation (risk adjusted) Services
6. Transportation and Traffic Impacts Assessments
7. Landscape and Visual Assessment
8. Ecological Assessment, Survey, Modelling and Management
9. Urban Design
10. Noise and Vibration Measurement, Modelling and Assessment
11. Air Quality Measurement, Modelling and Assessment
12. Water Quality, Measurement, Modelling and Assessment
13. Utilisation of Physical Resources
14. Contaminated Land Assessment

Tenderers may tender for one or more of the workstreams. Tender evaluation will be using the quality based method (Brooks Law), with a preferred service provider being selected per workstream.
